

## Best Supporting Roll

Innovation and flexibility for better service center efficiency.

At Severstal Columbus, our capacity to produce and finish a wide range of steel is matched by a unique ability to respond and deliver to service centers throughout the southeast and Mexico. With the newest and most technologically advanced mill in North America, a remarkably accessible location, and a true partnership approach to service center customers, Severstal Columbus is ready to roll for you.

Contact us toll-free at 866-369-3047 or online at [www.severstalms.com](http://www.severstalms.com).
